01.04.22.	01.05.22	Consultant and Therapist ToR added text – Quality Metrics section	New sections as below in both ToR regarding our stance on expected quality metrics for our providers.

Quality metrics

Improving the quality of care our members receive is top of our agenda. As a recognised provider we expect you to demonstrate that you measure the quality of clinical practice and service delivery. We expect you to reflect on your practice and the care you are giving to our members, always striving to improve and provide the best outcomes. You should collect, manage and report on quality metrics to demonstrate the success of your treatment, this would include:

- PROMS 'Patient-reported outcome measures' and PREMS 'Patient-reported experience measures' questionnaires;
- KPIs such as wait times for appointments/treatment;
- Complaint's data – separated into Clinical and Non-clinical complaints; and
- Average number of consultations/sessions, investigating and documenting where this goes above a reasonable average figure.

This should be in conjunction with the requirements of your recognised body, but we expect that you do this even if your recognised body does not mandate it. We will audit your practice on a regular basis and will approach you if we require your quality metrics. These will always be requested should you apply for a fee uplift.

The UK government's NHS white paper Equity and Excellence: Liberating the NHS (2010) <https://www.gov.uk/government/publications/liberating-the-nhs-white-paper> recommended that PROMs and PREMs (patient-reported experience measures) be used 'wherever practicable'. We expect that private patients have the same gold standard experience as NHS patients and experience improved healthcare outcomes due to the treatment undertaken.

01.03.22	01.04.22	Alignment of our Billing Standards (1.4) and Terms of Recognition for Consultants (11.) to state: You must ensure that members are appropriately discussed in the MDT, and that debate is evidence-based, and assure yourself that MDT notes and your notes accurately reflect discussion at these meetings. We may ask to see your MDT notes if these are relevant to the care pathway that any of our members may be on. Please note if our members case is being presented at an MDT meeting this cannot be charged for separately as this forms part of the expected care pathway.	Clarification that we do not pay for attendance at Multi-Disciplinary Team (MDT) meetings, this is because the fee we pay for a procedure is all inclusive, we would not expect to be billed in addition for any extras that are integral to the procedure. The reason that we won't pay extra – Unbundling. For more information on this clarification, please contact PractitionerQueries@vitality.co.uk
01.02.22.	01.03.22	Fee increase	CCSD code G4530 Catheterless oesophageal pH monitoring (e.g. Bravo) will be increased to £168-183

01.02.22.	01.03.22	Fee reduction to zero	CCSD Code 25030 Stellate ganglion block (neurolytic) +/- image guidance.

			Fee change from £120 to £0 (no fee). We would not expect an Anaesthetist to be present for this procedure.
01.02.22.	01.03.22	Fee reduction to zero	CCSD Code A5211 Epidural injection (caudal). Fee change from £120 to £0 (no fee). We would not expect an Anaesthetist to be present for this procedure.
04.01.22.	04.02.22.	Alignment of our Billing Standards and Terms of Recognition for Consultant Anaesthetists. We will no longer pay in addition for continuous epidural blockade, or major nerve or plexus blockade after localisation, performed by an anaesthetist in addition to general anaesthesia.	This means that in line with industry guidance the fee that we pay Anaesthetists for a procedure is all inclusive, we would not expect to be billed in addition for any extras, such as fees for: Pre- and post-operative care, including analgesia, insertion of IV lines, drips, dressing changes, admission & discharge of the patient. The reason we won't pay extra – Unbundling. For more information on this change, please contact PractitionerQueries@vitality.co.uk
